Thomas Alva Edison

Thomas Alva Edison was probably the greatest inventor who ever lived, though at school he never did really well. In fact, he went to the bottom of his class and stayed at the bottom for three months. Shortly after, at the age of 12, he left school and never went back! His first job was selling newspapers on trains, and later, at the age of 16, he got a job working in a telegraph office. Not all of Edison's inventions were successful. In fact, his first one was a failure. Many that followed, however, were spectacular successes and Edison became famous. Most people regard him as a genius.

Edison worked hard all his life, often working all night in his laboratory, and would not come home for days at a time. Edison married his first wife, Mary Stilwell, when he was 24. She was only 16 at the time. The story goes that he tapped out his proposal to her in Morse code on a gas-pipe: "Will you marry me?" "I will" came the reply, also in Morse code.

Mary died when Edison was 37 years old and two years later he married his second wife, Mina Miller. Although most of the inventions which made Edison famous were made in the first half of his life, Edison continued to work and invent till he was over 70, often working 16 hours a day! During his long and productive life Edison made 1,300 inventions. Edison died on October 18, 1931, at the age of 84. America and the world mourned his passing.

Decide if the following statements are true or false. Justify false ones

a. Mary Stilwell was as young as Thomas

b. Edison sometimes worked longer than 12 hours a day.

c. Edison knew Morse code, but Mary Stilwell didn't.

d. Mina Miller became Edison's wife 2 years after Mary died.

e. He worked on his inventions until his final days

One of the things I like best about school is my art class. We have a great teacher named Mrs. Hilbert. She is a wonderful artist. I love to watch her draw and paint. She taught us how to mix paint to make just the right colors for our paintings. She plays good music while we draw and paint. We draw and paint almost everyday in class. Some days we look at pictures of other artists. It is interesting to do this. It helps me to think of things that I want to paint or draw. We have an art exhibit in May this year. Our work will be in one of the banks in our town. We are inviting people from

the community to our exhibit. Our parents are invited to go with us. I have three paintings I am working on now. I hope one of them will be chosen to be in the exhibit. I like having a goal to work toward.

Becky was visiting Aunt Agatha at her house at the beach. It was a beautiful summer day. Becky had built a giant sand castle that morning. Aunt Agatha took pictures of the castle to send to Becky's parents. It was a great big sand castle. Later that morning, Becky and Aunt Agatha went swimming in the ocean.
